

Hope Begins at Acenda

The Adolescent Substance Use Recovery Initiative (ASURI) helps teens get early support for substance use concerns. The program focuses on prevention, guidance, and access to care, allowing youth and families to thrive.

ACENDA
INTEGRATED HEALTH

Program Services

ASURI offers Intensive Outpatient and Outpatient levels of care for teens and families navigating substance use concerns. Through early intervention and evidence-based care, the program helps youth build healthy coping skills, strengthen family connections, and move forward with confidence.

Program services include:

- Comprehensive intake assessment and individualized care planning
- Individual, group, and family counseling
- Case management and recovery support services
- Drug testing and ongoing monitoring
- Primarily in-person sessions, with length of care tailored to client's need
