

Therapist Owned and Operated

Mobile Therapy Services is a therapist-owned and operated company that is dedicated to providing superior therapy services in the home environment.

Founder & Owner, Yaffa Liebermann, PT, Geriatric Certified Specialist by APTA provides expertise in the areas of respiratory, orthopedic, stroke/neurological rehabilitation and geriatric care.

Yaffa has published a Stroke Restoration book as well as "I Stand Up Straight" children series. She has been featured on local radio broadcasts and continues to be a guest speaker at conventions and Universities.

The guiding principle of Mobile Therapy Services is to address the patient's needs with an individualized treatment plan which focuses on quickly and effectively achieving goals, while avoiding the need for re-hospitalization.

For innovative therapy services delivered at home with a personalized, hands-on approach, contact Mobile Therapy Services.

Mobile Therapy Services

is an approved DDD provider and accepts Medicare Part B and other standard insurance plans. Our therapists communicate with physicians regarding each client's plan of care and progress. By building a trusting, empathetic relationship with each client and doctor, Mobile Therapy Services' therapists create positive improvements, both physically and mentally.

732.493.3100

Individual care focused on addressing functional needs in your own environment and adapted to personal goals.

Our Services

Mobile Therapy Services provides Rehabilitative and Habilitative therapy treatments in home, group home, assisted living and independent living settings.

Rehabilitative Therapy Treatments

- An easy transition from hospital or nursing center to the home setting.
- Individualized treatment plans promoting faster recovery.
- Treatments targeting Fall Prevention, Orthopedic Rehabilitation, Stroke Rehabilitation, and Respiratory Rehabilitation.

Habilitative Therapy Treatments

- Helping individuals with disabilities attain, maintain, or improve function for daily living.
- Treatments focusing on range of motion, stretching and strengthening.
- Helping increase activity tolerance and self-care abilities.
- Treatments focusing on ambulation, safe transfers and use of assistive devices.

Caregiver Education and Training

“Thanks to Mobile Therapy Services, my son’s flexibility, posture and strength is greatly improved and his pain has decreased. The process of getting him dressed and ready for the day has become much easier. He is feeling better, and our quality of life is vastly improved!”

— Mrs. Q

Physical Therapy

Mobile Therapy Services physical therapists customize a treatment program to meet individuals distinctive goals. Our focus is to restore, maintain, encourage, and adapt movement to promote optimal mobility through exercise while utilizing items in the home.

Occupational Therapy

Mobile Therapy Services occupational therapists provide individuals with the tools to adapt home setting relative to current abilities while focusing on essential everyday needs.

Speech Language Pathology

Mobile Therapy Services speech-language pathologists focus on the evaluation and treatment of individuals communication cognition/thinking skills and the evaluation and treatment of swallowing disorders.

“Thank You for the confidence you have restored in me.”

— Ms. M

“An Excellent Experience. The therapist was very professional, knowledgeable, and caring.”

— Mrs. R

“I Really See An Improvement as I've progressed in therapy. I've really noticed the change.”

— Mr. B
